

BHAWESH PARATE

Software Engineer

📞 +91- 8975767478 ✉ bhaweshparate99@gmail.com 📍 Pune, MH

SUMMARY

Experienced Senior Software Developer with a successful track record in Java, Spring, and Spring Boot. Over 3 years of hands-on expertise in designing, developing, and implementing robust microservices architecture and RESTful APIs. Skilled in optimizing code efficiency, enhancing system scalability, and ensuring seamless integration. Passionate about staying current with technology trends, I bring dynamic problem-solving, innovative solution development, and effective cross-functional collaboration. Committed to delivering excellence in software development for impactful projects.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Capgemini

📅 07/2021 - Present 📍 Pune, MH

- Orchestrated the design and development of microservices architecture using Java and Spring Boot, ensuring the creation of modular and scalable components for a retail banking application.
- Implemented RESTful APIs to facilitate seamless communication between microservices, enhancing the overall system's flexibility and responsiveness in alignment with Agile development principles.
- Collaborated closely with cross-functional Agile teams, including product owners, Scrum Masters, and QA engineers, to refine user stories, prioritize features, and deliver high-quality software through iterative Agile sprints.
- Actively participated in Agile ceremonies such as sprint planning, daily stand-ups, sprint reviews, and retrospectives, fostering a culture of collaboration, transparency, and continuous improvement.
- Mentored junior team members within an Agile framework, emphasizing Agile values, principles, and best practices to facilitate their professional growth.
- Utilized Jira for Agile project management and documentation, maintaining clear and transparent communication within the Agile team.

PROJECTS

Retail Banking

📅 11/2021 - Present

- Enhanced various feature functionalities and introduced new functionalities to meet evolving business needs and improve user experience.
- Identified and resolved bugs, contributing to overall system stability.
- Addressed Sonarqube, Fortify & Security vulnerabilities, ensuring software integrity and safety.
- Played a pivotal role in designing and developing microservices using REST APIs.
- Implemented authentication practices to enhance security measures, ensuring secure and efficient user authentication.
- Conducted thorough testing procedures to pinpoint and address software defects, enhancing the overall quality of the system.
- Demonstrated proficiency in Git for effective version control and streamlined collaboration.

EDUCATION

Bachelor of Engineering, Electrical Engineer

Kavikulguru Institute of Technology
& Science, Nagpur (RTMNU)

📅 2016 - 2020 📍 Ramtek, Nagpur, MH

ACHIEVEMENTS

Full Stack Developer Course, Hyderabad

Java stack development technologies.
Create and work on java project.

AZ-900

Completed Azure
fundamentals certification.

SKILLS

Java

Spring

Spring MVC

Spring boot

REST API

Hibernate

MySql

JUnit

Git

Agile

JIRA
